

WESTERN EUROPEAN ARMS TALK TO BEGIN

Ben Kaul (second from right), chief tool and die engineer of Mullins Mfg. Corporation's Warren plant, receives a gold medal from George E. Whitlock, company president, for developing a new metal process. Whitlock called the process an outstanding achievement in the metal fabricating field. Those pictured at the presentation ceremony are, left to right: Frank M. Beauregard, vice president in charge of operations; Whitlock; H. M. Heckathorn, executive vice president, and Kaul.

Mullins Cites Kaul For New Metal Working Plan

For developing a new metal working process that is said to have far-reaching possibilities for use in the nation's defense, as well as commercially, Ben Kaul, chief tool and die engineer of Mullins Mfg. Corporation's Warren plant, has been presented with a special award of merit.

The award is a medal, given by the corporation and inscribed as follows: "Mullins Award of Merit, to Ben Kaul for outstanding achievement in the metal working industry."

George E. Whitlock, company president, made the presentation. Company officials said the process for the present would remain exclusively with Mullins (except in the event of a national emergency in which the process would be of invaluable assistance in the country's defense).

Kaul has been a Mullins' die engineer since 1940 when he came to the Salem plant from the City Auto Stamping Co. of Toledo. He has been engaged in special engineering assignments and during the war redesigned forging tools that saved millions of pounds of steel in the manufacture of war goods. He has served as head of the tool and die engineering department at Warren since May, 1945.

A native of Germany, Kaul was educated in German technical schools. He lives with his wife and daughter, Marion, at 399 Kenilworth ave. S. E., Warren.

Health Survey In County Produces Statistics, Plus

A cooperative health survey in the rural areas of Columbiana county has produced more than statistics. It's getting action.

Under the guidance of state and local medical authorities, a community project centered around the county's public health league made some pioneer strides in improving health conditions in the farming section.

Volunteers rang the doorbells. There were 317 of them. They served without pay, and provided their own automobiles and gasoline. They worked under the general direction of two people—Mrs. Roy Archibald, a farmer's wife who is a graduate nurse, and Miss Lillian Schroeder of Salem, executive secretary of the league.

They asked questions of 16,790 persons of the county's total population of 92,000.

The answers showed them where to aim their attack on illness and disease.

Here are some of the things that have resulted from the survey:

Establishment of pre-school clinics, to immunize small children against diphtheria, whooping cough and lockjaw.

A plan is under way to inspect all cattle before they enter the county. This is to prevent further cases of undulant fever.

The Parent-Teachers association has launched a dental program for school children, and the use of sodium fluoride for prevention of tooth decay is being studied.

Provision for smallpox vaccination for all babies before they are a year old. The survey showed only 17 per cent of children under five had been vaccinated.

DRIVER DIES IN MISHAP ON COUNTY ROAD

E. Liverpool Man Killed When Car Goes Into Ravine

Jack L. Guildoo, 25, of Garden Dale, East Liverpool, was instantly killed at 2 a. m. today when the car which he was driving left the curve on the Sprucevale-Cannons Mill road, one-fourth mile east of Route 30, went over a 10-foot embankment, tore down a section of pasture fence and overturned in a creek bed.

Guildoo was thrown from the car and was found lying on the rocks in the creek bed. He died of a fractured skull.

Farmer Makes Discovery
The accident was not discovered until 6 a. m. when a nearby farmer found Guildoo's companion, Jack Wilson, 18, of East Liverpool, wandering about in a dazed condition. The farmer immediately called the sheriff's office.

Sheriff Howard Clark said that tools were scattered around and a jack was set under the car. He believes Wilson, in his dazed condition, was attempting to right the car.

Wilson was taken to East Liverpool City hospital. He suffered bruises and lacerations of the head.

Guildoo's body was removed to the Dawson funeral home in East Liverpool.

State patrolmen are investigating this accident and one at 8:30 this morning on Route 7, south of Columbiana, in which Mrs. Freda McGuire, 48, of R. D. 3, Warren, received a possible fractured arm when her car was struck by a truck as they rounded a curve.

Uninjured were Mrs. McGuire's daughter, Audrey McGuire and Ruth Weddell of Mineral Ridge. Mrs. McGuire is under examination at Salem City hospital.

A driver who is accused of brandishing a gun in the face of a flagman on the Route 62 road surfacing project west of Salem, is being sought by patrolmen today.

Sharon Steel To Start Farrell Works Monday

YOUNGSTOWN, July 30—(AP)—Sharon Steel corporation will start up its Farrell works steel plant next Monday as Youngstown district steel plants begin snapping out of their July slump.

Operations here are rising four or five points next week to about 77 per cent as steel plants generally report a little better volume of steel buying now that many of the fabricator's "mass vacations" are over. Other steel districts also are reporting operating rises this week.

Indications here are that three Bessemer converters, 51 open hearths and 15 blast furnaces will operate next week, although the Bessemers and some of the blast furnaces will be on slow output schedules.

Two New Features To Appear In News

Two new features will appear in The Salem News, one of them starting today.

The first is a series of 17 articles entitled "You and Your Government." Written by James E. Warner, they are based on the Hoover Commission report and show how reorganization of the government would affect the welfare of the individual citizen.

Commencing Monday, the facts and fallacies about gambling will be told by Dr. Ernest E. Blanche in a series of seven articles, "You Can't Win." Think you can beat the races, the roulette wheel, cards or dice? Dr. Blanche, a leading mathematician, says "No."

Don't miss his expose of gambling.

Senate Confirms All But 2 Of Lausche Appointments

COLUMBUS, July 30—(AP)—Gov. Frank J. Lausche's appointments today for two new members of the reclamation board of review—the strip mining governing body.

This shopping expedition came as a result of a senate uprising over appointment of Milton Ronsheim of Cadiz and Clarence C. Fay of Lakewood, in a clamorous close to the 98th general assembly yesterday.

Ronsheim was supposed to be the public member of the five-man board; Fay the industry representative.

Sen. William Boyd (D-Cuyahoga) led the fight against the two men. He held Ronsheim, editor of the Cadiz Republican, was prejudiced against strip mine operators.

Then, he held Fay did not actually represent the strip mine owners. Fay is owner of the Rail and Lake Coal Co. in Harrison county.

These two appointments gave rise to one of the most involved and devious situations in recent senate history, with lengthy arguments centering around parliamentary rules.

After the ruckus over red tape, Ronsheim emerged with only 12 approving votes, and Fay collected only 10. Each man needed 17 votes to slip under the wire.

Under law, Governor Lausche may not name the same men to the board again. He can, however, name two other men to serve without senate confirmation until the next session of that body.

The senate took all its ire out on just two Lausche appointees. Other members of the strip mine board—Zoyd N. Flaler of Coldwater, Clyde L. Moyer of Columbus, H. C. Ramsower of Columbus and Edmund T. Sevest of Wooster—won overwhelming approval.

The senate also confirmed the following:

Ray O. Martin of Lucas county, member of the Public Utilities commission; Baldwin Rice of Highland county, member of the Conservation and Natural Resources commission; Evelyn Luchs of Athens county, board of trustees of Ohio university.

Roy E. Harmony of Shelby county, Pardon and Parole commission (Harmony resigned as a member of the house of representatives a few minutes earlier); Forrest G. Ketter of Columbus, Ohio State university board of trustees; Dr. R. W. Tapper of Dayton, state medical board, and Samuel B. Rudner of Belmont county, bedding advisory board for term ending Aug. 30, 1956.

Inch And Half of Rain Floods City In Sudden Downpour This Morning

A veritable cloudburst of 45-minute duration swept Salem during mid-morning today, bringing relief from the oppressive heat and causing some minor damage.

The rain squall left 1.5 inches of water in its wake. Some of the lowland areas of Salem were flooded, including the E. State-Lincoln intersection. The Lease drug store and Arbaugh's furniture store reported that some water flooded into their basements.

Fair Weather Promised
Weather forecast for Ohio is fair and cooler tonight. Sunday mostly sunny and pleasant, with a high-80 temperature.

In other sections of the country, not lucky enough to catch some rain, the death toll from the heat mounted to 75. Particularly hard hit are the eastern states.

The fresh Canadian air broke the week-long spell of hot and sticky weather over the central states yesterday and last night. It was moving eastward from 15 to 20 miles an hour and was expected to cover the eastern heat belt tonight. The federal weather bureau at Chicago did not expect much of the cool air to drift into the hot southern states.

Hot in East Today
And it looked like another day of hot weather for most of the eastern states, extending the heat wave to two weeks in some areas. With the arrival of the welcome cool air, it was a pleasant midsummer day in the central plains, the upper Mississippi valley and the upper Great Lakes region. No 90-degree temperatures were in prospect and there was a sharp reduction in humidity. The torrid eastern states can expect similar pleasant weather tonight and tomorrow, federal forecasters said.

The mercury was in the upper 60's in Chicago early today after a week of hot and humid weather. The death toll in the eastern states mounted as temperatures soared into the 90's and broke records for the date yesterday. There were scores of prostrations. Business establishments in many cities closed and sent employees home because of the sizzling heat.

President Truman was among the thousands in Washington who sought relief from the blazing sun. He and his staff left the 96.2 degree capital temperatures for a mountain-top hideaway in Maryland. Some 70,000 government employees were sent home early because of the heat.

Equals Mark
Yesterday's 96.2 reading in Washington equaled Tuesday's mark—the high for the year and the fifth consecutive day the mercury climbed above 95 in the current two-week heat spell. Five deaths caused indirectly by the heat were reported yesterday and there were nine heat deaths Thursday.

New York City had another sizzler Friday. The 97.8 reading was the hottest July 28 on record, and topped the previous high of 95.5 in 1892. Five heat deaths have been reported in the last two days.

Wife of Samuel Church Killed In Home Mishap
Mrs. Dorothy Williams Church, 52, wife of Samuel S. Church, formerly of Salem, was killed in a bathtub fall at the couple's apartment home in Mount Vernon, N. Y., it was learned here today.

Mr. Church met his wife 15 years ago in Singapore, China, when he was in charge of the Far East branch there for the National City Bank of New York. She was a nurse for the British government.

After the war broke out she returned to this country. He was taken prisoner by the Japs, but subsequently released.

The body will be brought to the Blackstone & Reese funeral home at Girard for funeral service at 9:30 a. m. Monday. Burial will be in the Girard cemetery.

PLANE TAKES U.S. OFFICIALS TO GERMANY

Joint Chiefs of Staff Also To Survey Yank Troops Overseas

FRANKFURT, Germany, July 30—(AP)—The United States joint chiefs of staff arrived here today in President Truman's personal plane to begin 10 days of conferences with western European military chiefs and to survey American forces in Europe.

The three top U.S. military commanders were greeted at Frankfurt's Rhein-Main airbase by American Military Governor John J. Mc Cloy and American military chiefs in Germany.

Adm. Louis Denfield, chief of naval operations, said he and Gen. Omar Bradley, U.S. chief of staff, and Gen. Hoyt Vandenberg, Air forces commander, would talk over military problems with western European leaders.

"We will talk with the chiefs of staff of the Atlantic pact nations during our 10-day stay in Europe," Denfield told newsmen. "We are not going to talk about military aid."

Apparently Admiral Denfield, in saying the talks would not deal with military aid, was referring to specific discussion of the military aid program which is now being debated in congress.

General Vandenberg said "there will be an exchange of ideas with the European military leaders."

General Bradley said the joint chiefs will confer in Paris with Field Marshal Lord Montgomery, chief of the Western Union (Britain, France, Belgium, Holland and Luxembourg) staff.

"We will see what kind of organization and staff are needed to implement the pact," Bradley added.

(Informed sources in London said Montgomery probably will urge that the Atlantic pact defense setup be made to correspond with his own five-nation organization.)

The joint chiefs of staff left Washington last night after testifying behind the closed doors of the house foreign affairs committee on the \$1,450,000,000 arms proposal.

On their return in about ten days, the military heads of the Army, Navy and Air Force are expected to meet with the committee again for "more extended" discussions.

If they gave the house group any startling secret testimony yesterday it was not disclosed. Committee members said the meeting could as well have been public.

Not Sold Yet
"They gave us some figures on Russian military strength which we have seen published already," a Republican member told newsmen. "But they did not tell us anything to clear up some of the doubts many of us have about the program."

"We haven't been sold yet," a Democrat added.

The committee has held only two days of hearings so far. And members said they probably won't get into details until later.

All three witnesses who have testified in public session stressed the importance of the program to the defense of the United States. They said it is needed to make friendly foreign nations strong enough to resist military aggression.

Fined \$25 And Costs For Possessing Quail
Earl Chambers, wild life exhibitor with the Petlin-Brooklyn-Wilson carnival, in Youngstown, was arrested by Mahoning County Game Warden Earl Ressler for possessing a quail.

The quail is classed as a song bird and is protected in the state of Ohio but legislation is pending to declare open season as they are getting so numerous.

When he appeared before Justice of the Peace B. J. Rosensteel, Chambers pleaded guilty to the charge and was fined \$25 and \$5 costs.

The bird will be released on the state game refuge in Green township.

Give Legislators a Choice

Secretary of State Acheson bears down hard in his testimony favoring the arms aid bill on a point almost always made in requests for public money—that the amount named is the absolute minimum for doing the job. But he names no absolute maximum.

Opposition in congress to the arms aid bill seems likely to jell on the claim that the government is asking too much; that it should be satisfied with considerably less than the \$1,450,000,000 requested. This makes sense to taxpayers who must furnish the money. In their arithmetic, there's no such thing as an absolute minimum.

They are familiar with the custom of asking for the maximum, when public money is involved. Every department of the government makes a practice of it. The only money handlers in the United States who invariably claim they need more than they have are the handlers of public money. Taxpayers resent it.

This is the handicap Secretary Acheson bears when he says that \$1,450,000,000 is a minimum figure. Millions of taxpayers who thought a year ago or two years ago that their incomes couldn't be cut—that they already were pared to the minimum—are now in the process of doing some more paring. Their minimum income is relative.

Just as a warm-weather suggestion, why wouldn't it be a good for public officials requesting appropriations to name a minimum figure and a maximum figure? Then legislators could make a choice. In the case of arms aid, the minimum might be half a billion for the first year. The maximum might be the billion and a-half named in the arms-aid bill. Congress might split the difference and appropriate a billion, which at least would have the merit of leaving a better taste in the taxpayer's mouth.

Something New For the Court

Tom C. Clark, as an associate justice of the United States Supreme court, will be the first Texan to serve on the highest bench. Along with whatever other good politics that may have gone into President Truman's appointment, the empire of Texas will be tickled pink. It's the biggest boost for Lone Star prestige since Texans turned the tide of victory in World War II.

It's still significant when anyone who doesn't think of himself as an old-timer in eastern law practice gets a Supreme court appointment. Until the Gay Nineties, no state as far as west as Iowa had placed an honored son on the high bench. Associate Justice Douglas, who sometimes thinks of himself as a far westerner (Washington) is typical of the legal profession's concentration in eastern practice; he is listed from Connecticut, for legal purposes.

Tom Clark, on the other hand, is a pure representative of the open spaces. Insofar as geography has a great deal to do with the way a man looks at a country as big as the United States, he will be likely to look at it with a Texas squint when he puts on judicial robes. And it's not likely he will be in awe of the weight of legal opinion that has stemmed in the past from the complicated societies in New York, Pennsylvania, Massachusetts, Virginia, which already have had more representatives on the Supreme court than Texas is likely to have when another 100 years have passed.

As Mr. Clark vacates the attorney generalship, he apparently is going to be succeeded in that Supreme court springboard by J. Howard McGrath of Rhode Island, another easterner. But Rhode Island never has had a Supreme court appointment either, so everybody should be satisfied.

Words Spoken In Anger

Philip Murray's angry outburst of name-calling before the presidential fact-finding commission in the steel industry's labor-management dispute is an object lesson in industrial strife.

Mr. Murray called steel industry leaders "the most sanctimonious bunch of professional racketeers in this country." Though the words were taken out of the record and Mr. Murray apologized for them later, they revealed the bitterness in the heart of the man who heads United Steelworkers and the C. I. O.

It goes without saying that anyone who feels the way Mr. Murray feels about steel industry leaders is going to find it hard to get along with them in a momentous industrial negotiation. And it goes without saying, also, that the bitterness isn't all on one side. The steel leaders are not full of admiration for Mr. Murray either. But the question isn't who cast the first stone. It's how to keep them from stoning each other to death.

Industrial friction in the United States is generated by hard feelings whose origins reach back into all the conflicts of the past and are sustained by all the wrong thinking of the present. It is a condition which challenges the American dream of a cooperative society kept in forward motion by mutual recognition of common goals. Mr. Murray and his union followers, and the leaders of the steel industry cannot survive in their joint undertakings without confidence in each other. To whatever extent they destroy confidence by malice, to that extent they hurt themselves and the American people.

THE STARS SAY:

For Sunday, July 31

By GENEVIEVE KEMBLE

SUNDAY'S astrological forecast is for a rather complicated or conflicting state of affairs, with much of promise, with indications of progressive and pleasant relations, especially in activities in which church, old institutions and elderly persons may be concerned.

These should flourish, with particular dramatic effect, but any show of extravagance, egotism, excess or prodigality might offset this gracious prospect. The mentality is creative and talents unique.

For the Birthday

Those whose birthday it is, may prepare for a strange year in which unusual, thrilling, out-of-the-ordinary contacts, emotions or openings may prove exciting and stimulating, inciting to exceptional adventures, experiences or alliances. The elderly are particular subject to the unaccustomed or irregular. Subtle, craft, hidden factors, give verve to living, although extravagance, excess, curious yearnings may prove detrimental or may exact peculiar loss or complications, with hazard to possessions or personal integrity.

A child born on this day may possess unusual talents, skills, cultural ability, artistic and intellectual, profound as well as complex. It may not find returns in material possessions.

For Monday, August 1

MONDAY'S horoscope holds augury of a sudden and dramatic turn of events, radical and far-reaching in its final analysis. New environs, fresh contacts, ambitious plans and projects, an uprooting in which long-range and stable foundations may be in the offing, are forecast. An astute and studied reorganization of affairs should thrive and prove stimulating to novel and bold initiative. Under this, obstacles may definitely melt away. Reactions on personal ties and interests may be abrupt, but all in all it may be desirable to "go it alone," since higher up are lukewarm.

For the Birthday

Those whose birthday it is, may count upon a constructive and productive year, with sudden developments inspiring bold initiative, giving birth to practical although experimental tactics or techniques, with creative ideas and plans of revolutionary force. Stability and study prompt a sound reorganization of affairs, in which also private interests are involved. The ambitions are original and comprehensive. However, it may be well to rely upon personal initiative as others may not prove responsive, although some domestic cooperation is available.

Those whose birthday it is, are richly endowed with ingenuity, daring, exceptional skills and concepts. It should attain an outstanding career, on its unique ideas and initiative.

You and Your Government

By JAMES E. WARNER

This series of articles, based on the Hoover Commission Report, shows how reorganization of the government would affect the welfare of the individual citizen.

"The Most Gigantic Business On Earth"

The "most gigantic business on earth" is the Federal government of the United States.

Every one of us is a partner in this business, which spends \$40,000,000,000 a year. That's just about \$285.71 apiece a year for you, me, our children, our parents—every person in the country. What's more, the public debt now is around \$250,000,000,000. That means a mortgage of \$1785 laid against the earnings or the property, present or prospective, of every man, woman and baby in the United States—a mortgage which will be bequeathed to our children and grandchildren, unless something is done about it.

The cold, factual findings of 12 of our best experts on government reveal the problems of the whole sprawling Federal bureaucracy. They included Republicans and Democrats from both the legislative and executive branches of the government, practical politicians, a university president and successful business men.

With "task forces" of 300 distinguished men and women, this commission on organization of the executive branch of the government, headed by Herbert Hoover, President, devoted eighteen months to an exhaustive study of the Federal structure. Then it submitted a monumental series of reports and recommendations on what to do about it. A very few of its recommendations have been adopted. Others will be considered during this and succeeding sessions of congress.

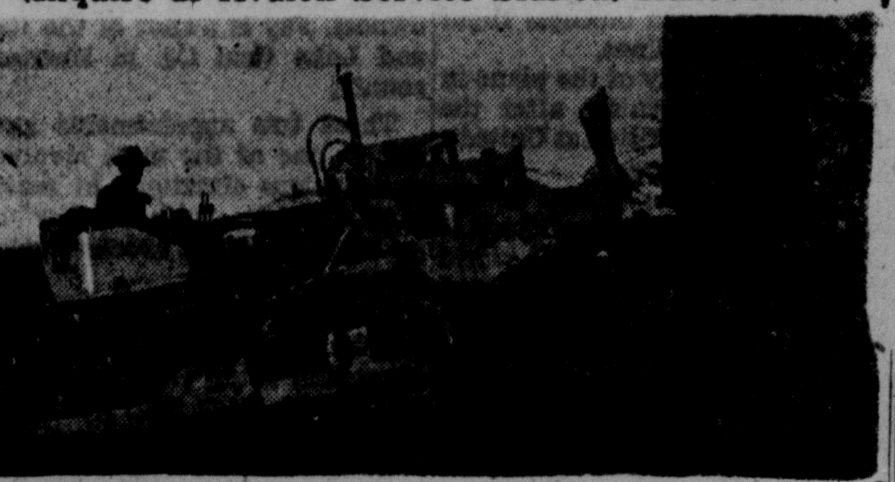

What's in it for you and me if the Federal government is put on a business-like, stream-lined basis? Just about \$21 a year knocked off your income tax bill for yourself and each of your dependents, for there are estimates that efficient operation of the government will save a minimum of \$3,000,000,000 a year.

Guarding Your Health

THERE is an extremely painful disorder of the spine known as rheumatoid spondylitis which seems to pick its victims especially among otherwise healthy young men.

In the beginning, the pain which is a big feature of this disease is usually limited to the lower part of the back. Those afflicted describe it as sharp and stabbing and note that it occurs only at intervals with some tendency to be worse at night. Occasional it may pass into the legs.

Pain Becomes Constant. As the disease continues, the pain becomes more constant and more severe. Then there may be some stiffness of the lower part of the back and later of the entire spine. Often the hips and shoulders are affected. As the stiffness progresses, the pain decreases, though a dull, aching discomfort may persist to flare up in an acute attack of pain from time to time.

time, particularly after exercise or strain.

Other symptoms, such as sleeplessness, loss of weight and poor appetite, are common in this condition. Frequently, too, these patients become mentally depressed. In most instances the disease develops gradually and occurs more often in persons who are tall and slender.

X-ray examination is helpful in making the diagnosis. Often changes are noted in the joints between the lowest part of the spine and the hip bone. The ligaments which hold the bones of the spine together may become calcified, that is, lime salts may be deposited in them.

In treating this disorder, three things are necessary to relieve the pain, to prevent deformity of the spine and to build up the patient's general health.

The latter requires rest and a diet rich in all the necessary food parts, supplemented by vitamins.

It is important that efforts be made to keep the patient from becoming apprehensive and depressed. It has been suggested that X-ray treatments over the back may be effective in controlling the pain. Pain-relieving preparations also may be used under the direction of the physician.

In helping to correct deformities of the spine, exercises are advised. If the patient is confined to bed, his back should be supported during this period and only a small pillow is allowed for the head. Occasionally a brace or belt may be of help in relieving the pain.

QUESTIONS AND ANSWERS. P. F.: What are the symptoms of chronic appendicitis? Is there any treatment except operation? Answered: Chronic appendicitis may cause pain in the lower right part of the abdomen. There may be occasional attacks of constipation or diarrhea. There may be fever, and the number of white cells in the blood may be increased.

Operation is the only form of treatment available.

Public's Conscience Enriches U.S. Treasury

By HARMAN W. NICHOLS
WASHINGTON, July 30—(UP)—The White House received a letter the other day which said:

"Enclosed is five cents I owe the government. While out in the Atlantic in a boat I dropped a nickel overboard. Here is another one to put back in the mint."

The unsigned letter apparently was written in all sincerity. Many federal agencies get letters from people with guilty consciences and most of the letters contain money. If they do, they go to the "conscience fund" under the Treasury's Bureau of Accounts; Joseph A. Woodson, chief. The money ends up in the general federal kitty and is spent.

First known contributions to the conscience fund were during the administration of President Madison back in 1811. The total that year was \$250. For the fiscal year 1948 it was \$124,168.12. Some people sign their names; others do not. A great many say they have found religion, and with it a pang of conscience for some past wrong.

Some Jokesters
A few jokesters are involved.

Like the woman who sent five cents in stamps "to be applied against 250-billion dollar public debt."

None of the letters, though, are funny to the conscience fund people who maintain a large office on the fourth floor of the Treasury building and keep an elaborate file and bookkeeping system on such matters. Each signed letter is answered politely.

The current crop of notes contains many from former servicemen.

One sent a money order for \$30 to pay for property he stole while wearing an army uniform. Another had filched "a bunch of light bulbs" from the navy. "I don't know how many," he said, "but I think \$10 will cover it."

A Marine declared he had been overpaid by \$2.62 at the time of his discharge. He returned it, plus 10 cents in interest.

A soldier said he had walked out of a separation center (somehow) with his discharge papers in one hand and a bass drum in the other. He sent \$17.50 with a notation that "it was such a poor drum it couldn't have been more than that."

Pays Debt Twice
A lady not long ago mailed in \$150 in cash. She explained that she owed the government that much and had sent the amount in before. "I didn't receive any reply from you the first time so here it is again."

She didn't sign her name to either letter.

Sometimes the amount is small, but in the past startled clerks have opened plain envelopes containing as much as \$30,000.

A letter addressed in an almost illegible scrawl arrived from a southern state this week. Inside was \$40 in bills plus a note saying, "Here it is boys." No name.

Fifty cents in stamps came from a man who had stolen a

spoon from a CCC camp several years ago. Another fellow said he had worked in a war plant and couldn't resist the temptation to lug home nuts and bolts. He said he thought \$3 would cover them.

"We never return any of it," Woodson said. "It would be impossible."

Especially the last letter received. It contained a simple "I Owe You." And \$97.

HOLLYWOOD—(NEA)—Great news for moviegoers! Theater admission prices at first-run theaters will be slashed to within sight of prewar levels this winter. The price reduction was agreed upon at a secret meeting of industry brass in New York.

Etiquette in the balcony:
Point 25 in a 30-point guide for theater managers and ushers, written by Nat Wolfe, zone manager for Warner Brothers Ohio's theaters, reads:

"Petting couples: Do not disturb unless the conduct is such that it is attracting the attention of those around them. If their conduct is noticeable do not hesitate, but say:

"It will be necessary for me to call one of the management if your attitude does not change at once." Call the manager if they persist."

Clark Gable's virility hits a new high in "Key to the City." In one scene he tears a telephone book in half with his bare hands.

LUXURY RETURNS
WONDER how many Hollywoodites remember that the Garden of Allah hotel once was the private residence of the famous silent star, Alla Nazimova. She finally lost title when the home was converted into a hotel but she went with the lease—free room and board—until her death.

A new manager, Jack Hawkins, a new chef, Jacques Richards, and a \$250,000 remodeling job have put the place back to its prewar splendor.

SWING AND SWAY
MUSIC publisher Ralph Peer predicts a big boom in danceable Hawaiian music. He's introducing a ballroom hula.

Joan Davis was telling me all about how she's becoming a sophisticated, subtle comedienne in "Turned Up Toes." Then director Alexander Hall interrupted with:

"Joan, in this next scene I'd like you to do that running up and down the stairs gag and trip at the end, falling on your face, like you always do."

"See what I mean," said Joan, "a new Joan Davis?"

Xavier Cugat is back in New York after his South American tour and opens soon at the Astor Roof. . . . Jackie Coogan is in Canada breaking in a comedy act for night clubs and TV. When it's smooth enough, he'll try for a New York booking.

Through the Years with Salem

The Visit of "Columbus," 1830

To the boys and girls of Salem in 1830 the visit of Columbus, a full-grown, honest-to-goodness elephant, was the thrill sensation of the decade. Without advance notice, the splendid animal and his trainer appeared one afternoon and put up in the stableyard of an inn. Several years previously a somewhat mangy lion had been exhibited, but he had fallen far short of boyish ideas of what the King of Beasts should be. Not so Columbus. Here was An Elephant. In order to induce a more leisurely departure as the pair left town a few days later, boys strewed apples and other delicacies in the roadway, but an unfeeling trainer hurried Columbus along and the boyish stratagem went for naught.

Today, a Salem father can load his family in the car, or on a bus or train, and in a few hours they'll be seeing dozens of strange and interesting animals at the Cleveland or Pittsburgh zoos. In no other country do the citizens have so much leisure, nor the means to gratify so many of their desires. But let's remember that if we're going to have things we have to produce them. Not even governments are able to give people something for nothing.

SOCIAL NOTES

Miss Schroeder Gives Bridge Party

Miss Lillian Schroeder gave a charmingly appointed dessert bridge Thursday evening at her home, E. Seventh st., to honor Miss Nellie Naragon, future bride of Elmer A. Leffel of Springfield.

Guests were 10 local members of Iota chapter, Delta Kappa Gamma, national honorary teachers society, including Mrs. Mary Bodo Fowler of Canfield and Mrs. Jean Winegard of Columbiana.

Honors in bridge were awarded Miss Naragon, Miss Natalie Sharpnack and Mrs. Margaret Baker.

Refreshments were served from a lace covered table centered with a "shower" of pink roses. Miss Naragon received a gift from the group.

Xi Phi Chapter Holds Picnic Supper

Thursday evening 16 members of Xi Phi chapter, Beta Sigma Phi sorority, enjoyed a picnic supper at Centennial park. Nine children were guests.

After the supper the group attended the concert given by the American Legion Quaker City band.

Arrangements for the outing were made by Mrs. Sherman Moore, who heads the social committee; Miss Marguerite Vincent, Miss Carmen McNicol, Mrs. A. W. Lieder and Mrs. Robert Keller.

Mrs. Joseph Pales of the Benton rd. has returned home from the Cleveland Clinic, where she was a surgical patient.

Jaycees And Families Attend Club Picnic

A program of contests afforded pleasure for members of the Jaycees and their families at a picnic Thursday evening at the Salem Country club. It was preceded by a coverdish supper, for which places were arranged for 85.

Winners in the events included Mrs. Robert Whitehill, James Jackson, Roy Yeager, Mrs. William Curran, Mrs. James Jackson, Roy Yeager, Jr., Charleen Rosenberry and Sandra Baughman.

Robert Whitehill and Henry Schuster were awarded prizes in the wheelbarrow races.

Berean Class Picnic Held At Silver Park

A baseball game between the "Yankees" and the "Indians" highlighted the entertainment at the annual family picnic of the Berean class of the First Friends church Thursday evening in Silver park, Alliance. It was a victory for the "Yankees."

\$13 Billion To Be Used For Women's Clothing

WASHINGTON, July 30—(UP)—The Chamber of Commerce of the United States predicted today that women will spend \$13,500,000,000 for clothes this year, more than 59 percent of the nation's total \$22,650,000,000 clothing bill.

Married women will account for more than half of the feminine buying with purchases worth \$8,140,000,000.

But employed single women, who are less numerous than their married sisters, will spend more on the average for their 1949 wardrobes. The Chamber predicted single working girls will spend \$300 each for clothes compared to an average outlay of about \$220 per married woman.

As for the men, they will account for only \$9,150,000,000 of the total clothing purchases, with bachelors spending \$230 each and married men only \$150 each.

The chamber based its estimate on a nationwide market analysis.

New Farm Bill Will Include Parity Price

WASHINGTON, July 30—(AP)—Senators trying to work out a compromise farm bill agreed today it will include a "modernized parity price formula."

Senator Anderson (D-NM), chairman of a senate agriculture subcommittee holding closed-door sessions, told reporters: "I think we have unanimous support for the modernized parity formula."

Anderson said the new parity formula already is part of the 1948 farm act, scheduled to go into operation at the end of this year, and called the Aiken act after Senator Aiken (R-Vt.).

A parity price is one intended to give a farm product the same relative purchasing power it had in a past period of favorable farm incomes. It is used in determining government loans and purchases of farm products.

The new formula would use a recent 10-year period — which includes the prosperous wartime era — for determining parity values.

Seven New Polio Cases

CLEVELAND, July 30—Seven new polio cases within the last 24 hours raised Cleveland's total for the year today to 50, compared with 44 at this time last year. There have been two deaths so far, against five in the first seven months of 1948.

Cherry County, Neb., is a bigger producer of cattle than the state of Wyoming.

"We, The Women"

BY RUTH MILLETT

So far as I know no husband has yet sued his wife for divorce on grounds that she made a fool of him on a radio audience participation show. But I can't figure out why not.

Every day for a chance at a washing machine or a set of matched luggage or whatever prize an insultingly glib master of ceremonies dangles before them, housewives on such programs "tell all" about their husbands.

Between giggles they'll gladly answer such questions as "What's your husband's worst fault?"—even if the answer is "snoring." Or they'll tell how he proposed—and the more ridiculous they make the once-ardent husband look, the more approving giggles the story gets from the studio audience.

Some wives will even go into a sob story about how, if they get the prize money, they'll keep papa out of jail, or get him back on his feet by paying the bills he can't meet.

NATIONWIDE AUDIENCE LISTENS

They'll tattle things about their husbands the men probably wouldn't tell to their best friends. And they are tattling such tidbits to what radio announcers like to refer to as the "vast, unseen audience."

They tell all with a nervous giggle, apparently pleased as punch to get a verbal pat on the head from the man who is making his living by getting them to talk.

It seems to me that is the rankiest kind of disloyalty to a husband—making him look idiotic to thousands of people all over the country.

So, it's a wonder to me some of the husbands who have had their privacy so betrayed haven't rebelled to the point of asking for a divorce on the ground that making a fool of a man over the air is mental cruelty.

But maybe by the time a wife broadcasts her husband's foibles and shortcomings to the world she has already made private conversation of them so often the husband takes it as a matter of course.

Clock Stops Cards And Dodgers For Second Time In Week

Curfew Stops Game With Teams Deadlocked In Ninth

By JACK HAND

Hail the clock—new chief umpire in the National League. With two consecutive Brooklyn-St. Louis games called a tie by the time keeper, the man with the watch is becoming more important than the players.

Curfew struck at 1:10 a. m. (EST) today at Sportsman's park with the Dodgers and Cards locked in a 3-3 tie at the end of nine innings. National league rules say they can't start a new inning of a night game after 12:50 a. m. (local time) so extra innings were out of the question. A heavy rain delayed the start.

Brooklyn almost missed a chance to tie the score for they barely completed the eighth inning, with St. Louis holding a 3-2 edge, at 12:47 a. m. St. Louis time (CDT).

As it was, the Dodgers managed to push over a run in the ninth on a walk to Roy Campanella, a pinch single by Marv Rackley and an outfield fly by Pee Wee Reese that scored Eddie Miksis, running for Campanella.

It was touch and go at the plate on Miksis who just made it from third after Chuck Diering made a shoestring catch of Reese's liner. Catcher Del Rice dropped Diering's peg as Miksis slid home with the tying run but no error was charged.

Howie Pollet, trying for his 14th win, had a shutout 3-0 at the end of seven innings with Nippy Jones and Marty Marion driving in the runs. A walk and successive singles by Carl Furillo, Jackie Robinson and Gil Hodges gave the Dodgers two in the eighth. Ted Wilks came in to strike out pinch hitter, Gene Hermanski to end the rally.

Earlier this week on Monday, the Dodgers and Cards played a 4-4 tie at Brooklyn when they stopped the game under an agreement that no inning should start after 3 p. m. (EST) to let the teams catch a train to the west.

St. Louis remains a game and a half in front of the runnerup Dodgers with another night game slated for tonight and a day game Sunday.

Herm Wehmeier, 22-year-old Cincinnati righthander, pitched his best game of the season and his first major league shutout as he beat New York with four hits, 3-0, in the only other National league game played.

The loss dropped the Giants into a fourth-place tie with the Philadelphia Phils whose scheduled day game at Chicago was washed out. Pittsburgh and Boston played three innings of their night game at Forbes field before a storm forced the game to be called on account of wet grounds.

Successful home runs by Johnny Lindell and Bill Johnson enabled the New York Yankees to add a half game to their American league lead with a 3-2 edge over Chicago while Cleveland split a day-night double-header at Boston. The results put the Yanks out front by 4½ games.

Cleveland rebounded from a 2-1 afternoon defeat at Boston to smother the Red Sox in the night game, 9-3. The Tribe routed Chuck Stobbs, promising young lefthander, before he retired a man in a four-run first inning at night.

Joe Dobson allowed only four hits in his afternoon triumph

over Mike Garcia for Boston's fifth straight win. Dom DiMaggio hit safely in both games, extending his consecutive game hitting straw to 25, longest of the season in the majors.

Connie Mack's surging Philadelphia A's ran their winning string to six, their longest of the year, by downing Detroit, 5-3. The A's are only one percentage point behind the third place Red Sox.

The St. Louis Browns, struggling to escape from the cellar, scored four in the 10th inning to hand Washington its 14th loss in 15 games, 6-2. Seventh-place Washington still is 4½ games ahead of the Browns.

Browns Send End But Keep Gene Derricotte

BOWLING GREEN, July 30 (AP) — The Cleveland Browns had to let the College All-Stars have one of their ends, but Halfback Gene Derricotte can remain in training camp here.

Mel Sheehan is to report to the college all-stars camp in Evanston, Ill., at the request of Coach Bud Wilkinson. He said the college squad suffered from a lack of good ends, but had plenty of halfbacks. Derricotte therefor was excused from reporting to Evanston.

Conduct Fish Survey With Nets At Guilford

In a recent survey at Guilford lake, three 14-foot nets were set in the lake and lifted every day from June 3 to June 26. A total of 18,106 fish were caught, at a rate of 12 fish per house.

Of that figure, only four percent were recaptured in the nets. All fish were marked when first caught.

Bluegills made up the largest percentage of fish caught, and ranged from four to nine inches, with an average of seven inches.

INDIANS RETURN TO GRAB A SPLIT

Drop First Game When Hitting Fails; Mike Garcia Loser

BOSTON, July 30—(AP)—Unable to coordinate pitching and hitting, the Cleveland Indians now are 4½ games out of first place .500 ball club on the current road trip.

Given sound hurling all day, the Tribe was virtually harmless in the opener of a twin bill against the Boston Red Sox yesterday and murderous in the second game.

They dropped the opener of the day-night doubleheader, 2-1, then came roaring back in the night tilt to win 9-3 with a 13-hit attack. While all this was going on, the league-leading New York Yankees edged the Chicago White Sox, 3-2.

The stalemate in the twin bill left the Tribe with a 3½ game margin over the scorching Red Sox with three games left in the series.

Burly Early Wynn, with a record of eight wins against two losses, will hurl for the Tribe today. He will be opposed by sore arm Jack Kramer who has won only one against six losses.

Prepared to run the gamut of left handed pitching in the Beantown, the Tribe were caught short by the appearance of "Cousin Joe" Dobson.

Only the righthanded Dobson was no cousin in yesterday's day game before 14,500. Usually easy pickings for the Tribe, he allowed four measly hits to rack up one of his finest efforts of the year. Also he beat the Tribe's current golden boy, Mike (The Bear) Garcia.

Garcia allowed only seven hits, but three of them with a throwing error by Center Fielder Larry Doby gave the Sox both their runs. It was Mike's fourth loss against eight wins.

Big Garcia doesn't get much hitting behind his right hurling. In two previous starts, he beat Boston, 1-0, and Washington, 2-1. Manager Lou Boudreau went back to shortstop for the first time since June 20 in an effort to load the Tribe lineup with right-handed hitting.

Ray Boone was benched and Ken Keltner took over the manager's third base spot. No one hit the short left field wall, however, and Bob Kennedy garnered the only Tribe extra base blow—a double with two out in the ninth.

Hal Peck, who has produced four straight times in pinch hitting roles, fanned to end the game. Young Chuck Stobbs threw five pitches in the second game and the Tribe had more runs than they could score in the whole opener.

Dale Mitchell walked on four pitches then Boudreau hit the left's first offering to him over the left field fence. A single by Joe Gordon, walks to Doby and Ken Keltner, and a single by Mickey (Mr. Clutch) Vernon scored two more runs. Stobbs was replaced by Tex Hughson, but Kennedy's fly scored a fifth marker and the ball game was clinched.

Boston made a fight of it in their half and drove Starter Gene Bearden to cover with only one out, one run in, and men on second and third.

Bob Feller was the reliever and after being greeted by a single by Bobby Doerr which scored two runs, he stopped the Sox on six more hits. The chore earned Feller his eighth win to bring him once again to the .500 mark. A crowd of 34,234 saw the night tilt.

V.F.W. Dropped From First Place; Loses To China 4-2

Five more softball games were played in the two city leagues Friday, as both loops moved well into the third round of play. The teams' goal is the Shaughnessy playoffs, open only to the first four in each league.

The most startling game last night was a 4-2 win by the China over the V. F. W. in the National league. The loss knocked the Vets out of a virtual tie with Bliss for first place.

Meanwhile, the Electric Furnace tightened its grip on fourth place in the loop by topping the C. I. O. 9-5.

Lisbon downed Fishers 8-6 in the third National league game. The four tailenders played in the American, with the Saxons taking Swetys 7-6 and Parkers drubbing the hapless Jaycees 12-1.

Both Dale Ritchie of the China and John McQuiston of the V.F.W. allowed six hits in their mound tussle. However, the China got theirs when they counted. Ed Duco led the China with a pair of bingles.

Lisbon tallied eight runs on only four hits, in beating Fishers. Three of the latter's five hits were contributed by Ray Snyder.

Six hits were enough for the Furnace to take the C. I. O., although the union men collected seven. Elsner had two for the losers. It was the Furnace's 10th win, their best showing in years.

A record of some sort was established by Parkers, who got 12 runs against the Jaycees on only four hits. Don Bell, Parker hurler, gave the losers only two safeties.

Saxons and Swetys had a tight tussle in their Centennial park battle. Bob Zeck, Herman Linder and Bill Zeck each got two hits to feature the Saxon attack. They got nine hits in all.

Pettit had two for Swetys, who garnered six off Winkler, Saxon hurler.

Westville East Lake To Be Opened Monday
The east lake of the Westville chain will be open for fishing Monday morning, Manager Arthur Dundon announced today.

Many fishermen in this section of the country await the opening of this lake each year because of the unusually large catches which are taken from it.

To supplement the information which will be obtained from test nets later on, the catch of each fisherman who fishes in this lake next Monday will be recorded.

"Short" Grant and his father, Nick Grant, of North Canton, went to the lake Wednesday, and after a day's fishing recorded their catch of 22 bluegills, five perch, one of them 10 inches, the other four between 12 and 13 inches in length, and one nice catfish.

The large perch are being caught consistently by those who know how to fish for them. Most of the good catches of large bluegills and perch are now being caught in 10 to 12 feet of water, in the second and third lakes.

Carol Diringler Again Wins Toledo Golf Title
TOLEDO, July 30—(AP)—Tiffin's Carol Diringler yesterday captured the Toledo Women's district golf championship for the second time yesterday.

She downed Peggy Kirk of Findlay, 3 and 2, in the 36-hole final match at Highland Meadows.

It gave her the third victory over Miss Kirk in seven meetings, and resulted in her regaining the crown she held in 1946.

Miss Kirk won the 1947 and 1948 titles, beating Miss Diringler enroute each time.

The New York Yankees have won the American League pennant 15 times under three managers—Miller Huggins (6), Joe McCarthy (8) and Bucky Harris (1).

Recover Stolen Property

Local police last night recovered some of the articles taken from an auto owned by William R. Mulholland of Baltimore, Md. The burglary took place between 1 and 2:30 a. m. Friday at the McCave tourist home at 750 W. State st.

Taken were a number of girls' dresses in a woman's suitcase and papers and records in a brief case. The papers and records were recovered in the bushes along the old Stark Transit right-of-way.

State Officer Coming

Grand Master of Ohio Paul E. Reed of Columbus will be a guest of Omega council, R. & S. M., Thursday evening, Sept. 22, at a meeting in the Masonic temple. Tentative plans are being made by the council to make it a gala event. Other councils of this district will be invited. Perry J. Robb is master.

Sent to San Antonio

Pvt. Norman W. Zimmerman, son of Mr. and Mrs. William A. Zimmerman, has been stationed at the Lockland Air Force base in San Antonio, Texas. His address is now Pvt. Norman William Zimmerman, A. F. 15278799, Flight 430513731st Basic Training Squadron, Lockland Air Force San Antonio, Texas.

Bauknecht Ill

Atty. John E. Bauknecht of East Palestine, former county prosecutor, remains in poor condition at City hospital today. He was placed in an oxygen tent upon being taken to the hospital Thursday and was still in the tent this morning. He was stricken with a severe heart attack in his home on West North ave.

Baptist Outing

More than 200 participated in the festivities when the First Baptist church and Sunday school held its annual outing this week in Firestone park.

William Sproat was in charge of a program of games and contests. Swimming was a favorite sport. A picnic supper was enjoyed.

Accepts Position

Calvin Critchfield, son of Mr. and Mrs. M. H. Critchfield, Lisbon rd., has accepted a position as supervisor of music in the Perryville school.

He is a graduate of the Salem High school and the Cincinnati Conservatory of Music.

Deaths

MRS. MARY E. CLINE

Mrs. Mary E. Cline, 76, who made her home with her daughter, Mrs. Paul G. Merrell of Cuyahoga Falls, died at 12:10 a. m. Friday in the Akron City hospital. She had been ill since Feb. 4.

Born in Salem June 29, 1874, Mrs. Cline was the daughter of John and Amanda Lloyd. She had lived in Alliance some years and went from there to the home of her daughter six months ago.

Surviving are two daughters, Mrs. Merrell and Mrs. Ralph First of Warren; two grandchildren and two sisters, Mrs. Cora Walker and Mrs. Florence Helsel of Salem.

Funeral service will be held at 2:30 p. m. Sunday in the Cassaday & Turkle funeral home, in charge of Dr. John V. Stephens, pastor of the Alliance First Presbyterian church. Burial will be made in Mt. Union cemetery.

Friends may call this evening at the funeral home.

Truman Regards '50 Elections 'Crucial'

WASHINGTON, July 30—(AP)—President Truman was reported today to regard the 1950 congressional elections as "crucial."

Charles M. LaFollette, newly-chosen national director of Americans for Democratic Action, told reporters of the president's views after a White House visit.

LaFollette, former Indiana congressman, said he assured the President his organization is "interested in uniting liberal forces for the 1950 campaign."

"I think 1950 is the crucial election," he said. "On it will depend how the American economy goes and how the American economy goes affects the entire world."

"We can't afford any empty bellies or empty pantries in this country."

LaFollette said Mr. Truman was in agreement with him on the need for electing a "forward looking congress." He added that the President also agreed that the elections are important to the extent of being "crucial."

ROAD DEATH TOLL SHOWS SLIGHT DROP

CHICAGO, July 30—The nation's traffic death toll for the first six months of 1949 was 13,810—only 100 lower than for the comparable 1948 period.

The National Safety council, which reported the figures today, said that a five-month comparison however, showed that the nation's motorists rolled up six per cent more mileage this year than last, and the ratio dropped to 7 deaths per 100,000,000 miles of travel.

Leading cities in each population group for the first six months of 1949, ranked according to the number of traffic deaths per 10,000 vehicles, included:

25,000 to 50,000—Warren, O., Boise, Idaho, and Elmira, N. Y., all 0.0.

Farm Emphasis On Livestock Crops

WASHINGTON, July 30—(INS)—The Agriculture department is putting on more steam in its drive to induce farmers to make a major shift from row crops to livestock production in 1950.

The emphasis still is on more grass, legumes and other cover crops at the expense of grains. Next year's agriculture conservation program lays new stress on the seeding of cover as a means of improving the condition of farm land and assuring the country of an ample food reserve.

There's something more than mere urging that may help to bring about the proposed changes next year. The department will spend 285 million dollars in assisting farmers who carry out its recommended conservation practices.

Individual farmers may collect as much as 25 hundred dollars, but few of them will get that much. Actually, it's estimated that the program will cover less than 50 percent of the total cost for carrying out conservation practices.

A national outline for the new program will be sent to all the states very soon.

It will be similar to those of the past with the government paying for lime, fertilizer and seed.

A More Abundant Life

The government can't give it to you. All any government ever has to give is what it collects in taxes from the people themselves. You are one of the people, and the man who pays is not the one who receives, as a rule.

But the money you "tax" yourself, and lay aside week by week in this safe old NATIONAL bank is always your own, for your own good and that of your family. You make your own more abundant life by systematic saving.

We welcome your savings in person or by mail.
